## PREFACE

*Mr*  
**J. UDAY BHASKAR**  
(M.Com)SICA GOLD MEDAL  
Chairman

---

I believe that teaching is not speaking. It is making. I always treat teaching not as a profession but a mission. Discipline is never a part of education rather education a part of discipline for, with discipline, one can touch the peaks of success even without education. We can see many such great people.. Education is a progressive discovery of one's own ignorance. By lighting the lamp of inner spark and skills of children, we can dispel or drive away the darkness of ignorance.

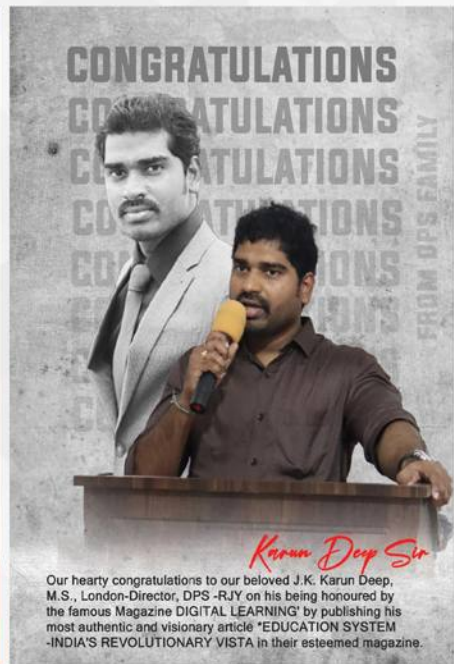

*Mr*  
**CHALUMURU SRINIVAS**  
Vice Chairman

---

Mr. Chalumuru Srinivas, the Director, believes in striving for excellence in everything. CBSE pattern follows a compact structure which provides basic and complete knowledge for a child to move forward in terms of education. CBSE emphasises on CERT curriculum which is not based on the rote learning and provides a competitive edge at the national level after schooling.

# EDUCATION SYSTEM - INDIA'S REVOLUTIONARY VISTA

# VISION OF FUTURE EDUCATION FOR VISIONARY

## Mr.J.K. KARUN DEEP M.S. London Director

Modern education demands modern methods of teaching and learning. India's education system is in need of a complete overhaul. The National Education Policy 2020 is the first policy of the 21st century.

The Indian school system is one of the largest providers of education to over 250 million students. Modern education is the contemporary way of educating the students in schools and learning institutions of the 21st century. The new education demands to move away from traditional mainstream subjects such as medical, non-medical, commerce, humanities, and focus more on life skills, critical & analytical thinking, and logical reasoning. The new-age education system includes using the latest technology like smartphones, mobile applications, audio and video platforms, podcasts, and e-books to educate the learners while engaging with great interest. Now, things work in a fast-paced mode where results are expected within seconds. Therefore, the education systems across the world must transform according to the evolution in demand of thinkers and creators.

## DIRECTOR'S PREFACE

*Mr*

**CH.A. Srikanth**

B.Tech  
Director

---

Mr. Ch. A. Srikanth, a distinguished individual with a B.Tech background, stands at the helm of DPS Rajahmundry, exemplifying a visionary leader in the field of education. His commitment extends beyond the conventional notion of teaching, aiming to unlock the full potential of each child. In the pursuit of academic excellence, he emphasizes not only the accumulation of knowledge but the sharpening of intellect. His approach is centered around creating an environment where young minds can flourish with uncluttered intelligence, fostering a generation with expansive visions deeply rooted in their cultural heritage.

Dedicated to a holistic educational experience, he believes in the synergy of technology and values. For him, it is crucial to provide children with a well-rounded education that incorporates the latest technological advancements while instilling timeless values. This philosophy reflects a commitment to preparing students not just for the challenges of today but equipping them with the skills and principles needed to navigate an ever-evolving future.

In his leadership, DPS Rajahmundry emerges as a beacon of educational excellence, where the fusion of modern tools and enduring values paves the way for the development of intellectually sharp, morally grounded individuals. His profound belief in this perfect blend positions the institution as a nurturing ground for the next generation, fostering a harmonious synthesis of innovation and tradition.

## PREFACE

*Ms*  
**Binita Roy**  
Principal

---

"Dear Trailblazers,

Welcome to a realm of infinite possibilities! As we dive into the vibrant pages of this year's school magazine, I invite you to join me in celebrating the spirit of uniqueness that defines our extraordinary academic community.

Our school isn't just a building; it's a haven where curiosity knows no bounds, and innovation takes flight. In these pages, you'll discover tales of resilience, creativity, and the kaleidoscope of talents that make us who we are.

To our students, you are the architects of your destiny; embrace the opportunities that lie ahead. To our dedicated faculty, your passion for teaching is the guiding light for our students. And to parents, your unwavering support fuels the dreams that come to life within these walls.

In the following chapters, let's unravel the stories of courage, the experiments of brilliance, and the symphony of diverse talents that compose the masterpiece of our academic year 2023-24. Aristotle once said, "Educating the mind without educating the heart is no education at all". Remember, education is not just about textbooks and exams; it's a journey of self-discovery, collaboration, and growth. May this magazine be a kaleidoscope of inspiration, reminding us all that in every challenge, there's an opportunity to shine.

Here's to a year of daring endeavors, triumphant tales, and boundless exploration.

With zest and zeal,

Binita Roy  
Principal

## ALL ABOUT HIGH SCHOOL

The academic programs at DPS Rajahmundry are designed to foster intellectual curiosity, critical thinking, and creativity. The school follows a comprehensive curriculum that is aligned with national and international standards, preparing students for success in various competitive examinations and higher education opportunities. In addition to academics, DPS Rajahmundry places a strong emphasis on extracurricular activities, recognizing the importance of a well-rounded education. Students have the opportunity to participate in a wide range of clubs, sports, cultural events, and community service initiatives, allowing them to explore their interests and talents beyond the classroom.

### Our Coordinator

*Mrs.*  
**Niveditha**  
High School Coordinator

---

Mrs. Niveditha is a dedicated chemistry faculty member and visionary high school coordinator, who did her masters in education and post graduation in Chemistry & whose 28 years of unwavering dedication have left an indelible mark on the school community.

Mrs. Niveditha believes in this quote that "Education is the most powerful weapon you can use to change the world."

Armed with a wealth of knowledge and a contagious enthusiasm for the subject, Niveditha serves as a beacon of inspiration in the chemistry department. With innovative teaching methods and a knack for making complex concepts accessible, she cultivates a love for chemistry in students that extends far beyond the classroom.

As the high school coordinator at DPS, Niveditha plays a pivotal role in shaping the academic and extracurricular landscape of the school. With a keen eye for detail and a passion for student welfare, she ensures that every aspect of the high school experience – from curriculum planning to student support services – is designed to foster growth, excellence, and inclusivity. Under her guidance, DPS students are empowered to pursue their passions, explore their interests, and embrace their unique talents. Whether it's through organizing enriching workshops, coordinating impactful community service projects, or providing personalized academic support, she goes above and beyond to ensure that every student has the opportunity to thrive.

# Investiture Ceremony

Embrace the spirit of achievement!

An investiture ceremony in schools is a formal event during which students are bestowed with positions of authority and responsibility. These positions may include school prefects, student council members, house captains, or other leadership roles. The ceremony is marked by the handing over of symbolic items like badges, sashes, or ties, which serve as visible representations of the bestowed responsibilities.

## SIGNIFICANCE OF HOUSE SYSTEM

The House System provides excellent opportunities for student leadership and peer group support. Aided by dedicated staff members, and house captains, it is a remarkable medium for enabling students of different ages to bond together and operate as a cohesive family. The primary purpose of the House System is to create a sense of 'spirit and belonging across the school and allow students to mix with girls at different grade levels during organised events

Our four houses are aptly named

● Discipline ....red

● Devotion .....blue

● Dedication ....Yellow

● Determination....green

**Agni (Fire):** Agni represents the element of fire. It symbolizes transformation, purification, and the energy of change. Fire is often associated with passion, illumination, and the catalyst for transformation in both the physical and spiritual realms.

**Vayu (Air):** Vayu is the element of air or wind. It is linked to the qualities of movement, communication, and change. Air represents the breath of life and the dynamic force that sustains existence. It is associated with the subtle energies that permeate the cosmos.

**Prithvi (Earth):** Prithvi is the element of earth. It symbolizes stability, fertility, and the material aspects of existence. Earth is connected to grounding, nurturing, and the physical realm. It represents the solid foundation from which life emerges.

**Akash (Ether or Space):** Akash is associated with space or the void. It is considered the subtlest of the elements and is often seen as the medium that pervades and connects all things. Akash is symbolic of the boundless, infinite space that accommodates the other elements.

# Investiture Ceremony

Embrace the spirit of achievement!

The Investiture Ceremony is a solemn occasion wherein all the young students are well prepared to don the mantle of leadership and responsibility while carrying it out with utmost dedication. Initially, the candidates had prepared and presented strong speeches in front of all the students and teachers in order to qualify for the Elections. A democratic voting procedure was set in pace which ultimately formed the school student council of the year 2023-2024.

The newly elected student council members pledged to work earnestly and uphold the honour and glory of the institution while receiving their prestigious Flag, badge and sash from the Chief Guest Mr Aldridge D'Souza and Mrs Elaine D'Souza Buthello, members of Aldel Education Trust. The Head Boy, Head Girl, Sports Captains and House Captains stood tall while holding the flags of DPS RJY as destiny prepared itself to bring in many more laurels to the institution.

# Yoga Day

Yoga is the gateway to happiness and the secret to a healthy mind.

International Yoga Day, celebrated annually on June 21st, is a global acknowledgment of the ancient practice's profound impact on physical, mental, and spiritual well-being. The day aims to promote awareness about yoga and encourage its integration into daily life. Marked by various events and activities worldwide, Yoga Day serves as a reminder of the universal

appeal and inclusivity of yoga. It brings people together, transcending boundaries, to share in the practice of postures, breath control, and meditation.

# Yoga Day

Yoga is the gateway to happiness and the secret to a healthy mind.

The significance of Yoga Day lies not only in the physical benefits of improved flexibility and strength but also in fostering mental clarity and emotional balance. It acts as a catalyst for promoting a healthier lifestyle and stress-free living. As individuals of all ages and backgrounds unite in celebrating International Yoga Day, the global community reaffirms its commitment to a healthier, more balanced world."

In a serene atmosphere filled with positive energy, our school celebrated International Yoga Day with great enthusiasm. The day commenced with a collective yoga session, where students, teachers, and staff participated in various asanas, promoting physical and mental well-being.

Classrooms transformed into peaceful spaces adorned with yoga mats and soothing music. Teachers guided students through different yoga poses, emphasizing the importance of balance, flexibility, and mindfulness. The rhythmic flow of collective breaths created a sense of unity among participants.

The celebration extended beyond the yoga session, with informative sessions on the benefits of yoga and its impact on overall health. Students actively engaged in discussions, gaining insights into the ancient practice's holistic approach to wellness. International Yoga Day at our school not only fostered physical fitness but also instilled a deeper understanding of the profound connection between the body, mind, and soul."

# Independence day

Freedom is our legacy, and Independence is our pride

A Patriotic Spectacle: Independence Day Celebrations Illuminate DPS\*As the sun rose on August 15th 2023, the halls of DPS echoed with the spirit of patriotism, as students and faculty came together to commemorate Independence Day in a grand celebration. The day commenced with a solemn flag-hoisting ceremony, where the national flag fluttered proudly in the gentle breeze. The air was filled with the stirring notes of the national anthem, evoking a sense of pride and unity among the attendees. Following the ceremonial proceedings, the school grounds transformed into a vibrant tapestry of colors and culture. Students showcased their artistic talents through a series of performances, including patriotic songs, dance routines,

And skits that depicted the rich history and diverse heritage of our nation. The highlight of the event was a heartwarming tribute to the unsung heroes who fought for our freedom. The day concluded with a fervent speech by both the school directors and principal, encouraging students to uphold the values of freedom, equality, and justice. The event not only celebrated the significance of Independence Day but also served as a reminder of the responsibility each citizen carries in preserving the hard-earned freedom. In essence, DPS left an indelible mark on Independence Day, creating cherished memories and instilling a deep sense of patriotism in the hearts of its students and staff. The celebration was a testament to the school's commitment to nurturing responsible and proud citizens who understand the true essence of independence.

# Independence day

Freedom is our legacy, and Independence is our pride

Independence Day performances are a vibrant display of patriotism and artistic expression. From stirring national anthems to energetic dance routines, these performances encapsulate the spirit of freedom. Musical renditions often feature patriotic songs, while dance performances showcase diverse cultural traditions. Theatrical acts and speeches further contribute to the celebration, fostering a sense of unity and pride among spectators. These performances play a crucial role in commemorating the significance of Independence Day.

# తెలుగు భాషా దినోత్సవం

అమ్మ ప్రేమలా స్యచ్చమైనది చిన్నారుల నవ్వులా అచ్చమైనది అమ్మతం కంటి తీయవైనది అందమైన మన తెలుగు భాష

దేశ భాషలందు తెలుగు లెస్స అని శ్రీ కృష్ణదేవ రాయలు చెప్పిన.. చెయ్యేతి జై కొట్టు తెలుగ్డా.. గతమెంతో ఘనకీర్తి గలవోడా.. అనే వేములపల్లి గీతం ఆలపించిన తెలుగువారి రోమాలు నిక్కవోడుమకుంటాయి. దేశంలో 22 అధికారిక గుర్తింపు కలిగిన భాషల్లో ఒకటిగా వెలుగొందుతున్న తెలుగు భాషకు మూలం ద్రావిడ భాష. ఆంధ్రప్రదేశ్ అధికారిక భాష చట్టం ద్వారా 1966 లో తెలుగు ను రాష్ట్ర అధికారిక భాషగా ప్రభుత్వం ప్రకటించింది.

తెలుగు రాష్ట్రాలతో పాటు కేంద్ర పాలిత ప్రాంతమైన యానాం లోను తెలుగును అధికారిక భాషగా గుర్తించారు. ఇక 2008 లో కన్నడ తో పాటు తెలుగును ప్రాచీన భాష గా గుర్తించారు. హిందీ , బెంగాలీ భాషల తర్వాత దేశంలో అత్యధికులు మాట్లాడుకునే భాష తెలుగు. తెలుగు రాష్ట్రాలతో పాటు ఇతర రాష్ట్రాల్లోనూ.. ఇతర దేశాల్లోనూ పెద్ద సంఖ్యలో తెలుగు మాట్లాడేవారు ఉన్నారు.

మనం ప్రతి యేటా ఆగస్టు 29న తెలుగు భాషా దినోత్సవాన్ని జరుపుకోవాలి. తెలుగు కవి గిడుగు వెంకట రామమూర్తి (Gidugu Venkata Rammurthi) జయంతి నేడు. తెలుగు భాషకు (Telugu Language) ఆయన చేసిన సేవలను గౌరవించటానికి.. ఆయన జయంతి నాడు తెలుగు భాషా దినోత్సవాన్ని జరుపుకుంటాము. ఈ ఏడాది కవి గిడుగు వెంకట రామమూర్తి 160వ జయంతి వేడుకలు కూడా జరుగుతున్నాయి. కానీ.. గిడుగు రామమూర్తి ఏ ఉద్దేశంతో పోరాటం చేశారో.. ఆ ఉద్దేశం మాత్రం నెరవేరడం లేదు. తెలుగు భాష కనుమరుగైపోకుండా చూడాల్సిన బాధ్యత ప్రతి తెలుగువాడిపై ఉంది. అయితే ఈ మధ్యన రాష్ట్ర ప్రభుత్వం ప్రతి పాఠశాలలో విద్యార్థులు, ఉపాధ్యాయులు కలిసి ఘనంగా తెలుగు భాషా దినోత్సవాన్ని జరుపుకోవాలని నిర్ణయం తీసుకోవడం విశేషం.

# Anti Drug Rally

Say No to Drugs: Say Yes to Life.

SAY NO TO  
**DRUGS**

An anti-drug rally is a public gathering or event organized to raise awareness about the dangers of drug abuse and promote a drug-free lifestyle. The goal is to unite individuals and communities in the fight against substance abuse, providing information, resources, and a platform for open discussions to address the challenges posed by drug misuse. Anti-drug rallies aim to inspire positive choices, discourage drug use, and foster a sense of collective responsibility to create drug-free environments.

School Anti-Drug Rally Promotes a Drug-Free Campus 26-Jun-2023 marked a significant day at Delhi Public School Rajahmundry as students, faculty, and staff joined forces in an impactful Anti-Drug Rally, fostering a sense of responsibility and unity against substance abuse. The school's commitment to providing a safe and nurturing environment was prominently displayed throughout the event. The rally commenced with an inspiring assembly featuring speakers from within the school community, including teachers, counselors, and even students who bravely shared their personal stories or insights on the dangers of drug abuse. The emphasis was on education, dispelling myths, and encouraging open conversations about the choices students make. Engaging activities were integrated into the rally, such as informative workshops and interactive sessions where students learned about the consequences of substance misuse and the resources available for support. The aim was not only to raise awareness but to equip students with the knowledge and tools to make informed decisions regarding their well-being.

# Anti Drug Rally

Say No to Drugs: Say Yes to Life.

Various student clubs and organizations set up booths, offering resources, pamphlets, and engaging displays to reinforce the message of a drug-free school. Artistic expressions, such as anti-drug posters and murals created by students, adorned the school grounds, serving as a visual reminder of the collective commitment. A highlight of the event was the "Pledge Wall," where students

staff could publicly commit to maintaining a drug-free environment by signing their names and leaving personal messages of encouragement. This symbolic gesture united the school community in a shared commitment to building a healthy and drug-free future. The rally concluded with a lively march around the school premises, demonstrating the collective strength of the student body against substance abuse. The vibrant energy and enthusiasm showcased the students' determination to create a positive and supportive atmosphere within the school. In the aftermath of the Anti-Drug Rally, ongoing initiatives, such as peer mentoring programs and educational campaigns, were implemented to ensure the sustainability of the anti-drug message. The school community remains dedicated to fostering a culture where students feel empowered to make healthy choices, setting the stage for a brighter, drug-free future within the school's walls.

# Teachers Day

Teachers: The pillars of a student's life.

Teachers' Day is a special occasion dedicated to honoring and appreciating the contributions of educators in shaping the lives of students. Celebrated in various countries on different dates, it commonly marks the birth anniversary of renowned educators like Dr. Sarvepalli Radhakrishnan in India. It provides an opportunity for students to recognize and honor the dedication, hard work, and guidance that teachers provide throughout the academic year. The celebration often includes various activities, such as special assemblies, cultural programs, and presentations by students expressing their gratitude.

The celebration of Teachers' Day is not just a gesture of thankfulness but also a means to foster a positive teacher-student relationship, creating a sense of camaraderie within the school community. It reminds both students and teachers of the importance of education and the impact teachers have in shaping the future of their students. Overall, Teachers' Day serves as a moment to celebrate the teaching profession and the positive influence educators have on the development of young minds.

# Children's day

Every child is special and unique. ...

Children's Day, also known as 'Bal Diwas', is celebrated in India on November 14 to commemorate the birth anniversary of Jawaharlal Nehru, who advocated for children's education and rights. Children's Day is celebrated to highlight and promote the well-being of children worldwide. The celebration aims to raise awareness about the rights, needs, and issues facing children. It provides an opportunity to focus on their education, health, and overall development. Additionally, Children's Day serves as a reminder to society and governments to ensure that children have a safe, nurturing environment to grow and thrive. The celebration varies in date and form across different countries but is generally dedicated to acknowledging and cherishing the importance of children in our communities.

The programme began with a special assembly conducted by the teachers, followed by informative and inspirational speeches by the Directors about the great leader, thinker, visionary and a true statesman – Pandit Jawaharlal Nehru. The first Prime Minister of independent India was extremely fond of children and the programme clearly depicted the spirit of the occasion with teachers holding the stage and putting up a mesmerising cultural show for the children.

# Mock Parliament

Debate, Discuss, Decide.

A Mock Parliament is an educational and engaging simulation that replicates the workings of a legislative body, offering participants a firsthand experience of democratic processes. This experiential exercise is not merely a role-play but a dynamic tool that imparts a deeper understanding of parliamentary proceedings, political dynamics, and the essence of democracy.

The primary objective of a Mock Parliament is to provide students, often at educational institutions, with a practical insight into the functioning of a legislative assembly. Participants assume various roles, representing different political parties, and engage in debates, discussions, and decision-making processes akin to a real parliamentary session. Through this simulation, students develop crucial skills such as public speaking, negotiation, critical thinking, and teamwork.

# Mock Parliament

Debate, Discuss, Decide.

They learn the art of crafting persuasive arguments, understanding diverse viewpoints, and collaborating to reach consensus – skills that extend beyond the realm of politics and are valuable in various aspects of life. Mock Parliament sessions typically involve the introduction of bills, discussions on current issues, and the examination of proposed legislation.

Participants research, prepare speeches, and defend their positions, mirroring the responsibilities of elected representatives. This hands-on experience enables them to appreciate the complexities of governance and the importance of effective communication in the political arena. Moreover, a Mock Parliament serves as a platform for fostering civic awareness and responsibility. Participants gain a sense of the challenges faced by policymakers, encouraging them to become informed and engaged citizens. It instills a sense of civic duty, emphasizing the role each individual plays in shaping the democratic fabric of society. In conclusion, a Mock Parliament is more than just a simulated political exercise; it is an experiential journey that equips participants with skills, knowledge, and a profound appreciation for the democratic process. By immersing themselves in this dynamic simulation, students become active contributors to the democratic dialogue, paving the way for a more politically conscious and participatory citizenry.

# National Mathematics Day

The Only way to learn Mathematics is to do Mathematics

National Mathematics Day (NMD) is observed on December 22 each year. It is celebrated to commemorate the birth anniversary of the great Indian mathematician Srinivasa Ramanujan.

The significance of Mathematics Day lies in its role as a platform to promote awareness, appreciation, and understanding of mathematics. Here are key aspects that contribute to the significance of celebrating Mathematics Day

**Promoting Mathematical Education:** Mathematics Day serves as an opportunity to highlight the importance of mathematical education. It encourages students to engage with the subject, fostering a positive attitude toward learning and problem-solving.

**Honoring Mathematical Achievements:** The day is a chance to celebrate the achievements of mathematicians throughout history. Recognizing the contributions of these thinkers helps inspire current and future generations to pursue mathematical excellence.

**Creating Awareness of Real-world Applications:** Mathematics is not just an abstract concept; it has real-world applications in various fields. Mathematics Day events often showcase these applications, demonstrating how math plays a crucial role in science, technology, engineering, and everyday life.

# National Mathematics Day

The Only way to learn Mathematics is to do Mathematics

**Encouraging Interdisciplinary Connections:** Mathematics is often interconnected with other disciplines. The celebration of Mathematics Day emphasizes these interdisciplinary connections, showing how math interacts with science, art, technology, and more.

**Fostering Problem-Solving Skills:** Through engaging activities and challenges, Mathematics Day encourages the development of critical thinking and problem-solving skills. These skills are not only vital in mathematics but also applicable in many aspects of life.

**Inspiring Future Innovators:** By bringing in guest speakers, organizing workshops, and showcasing the practical applications of mathematics, the day inspires students to consider careers in STEM fields (Science, Technology, Engineering, and Mathematics), contributing to future innovations and advancements.

**Changing Perceptions about Mathematics:** For some, mathematics may seem daunting or uninteresting. Mathematics Day aims to change these perceptions by making the subject more approachable, enjoyable, and relevant to daily experiences. In essence, Mathematics Day serves as a catalyst for promoting a positive and holistic view of mathematics.

# Children's day

Every child is special and unique. ...

The following cultural programme had a series of interesting and exciting events, all planned meticulously for complete entertainment. Teachers of the junior section enthralled the audience with their energetic and graceful moves with their traditional dance. Students pulsated with excitement when their teachers presented a group dance. The celebratory mood continued with an invigorating and foot-tapping 'Bhangra' by teachers of Primary section. Subsequently, a song was presented by a group of teachers. Students were elated to see their teachers performing and celebrating the day with zeal and enthusiasm. Various activities were organised for the children of all classes such as art competitions and a cricket match between the students and the teachers. Students greatly enjoyed playing and winning against their mentors. It was a day full of joy and laughter for the students.

## DELHI PUBLIC SCHOOL RAJAHMUNDRY

## DELHI PUBLIC SCHOOL RAJAHMUNDRY

## DELHI PUBLIC SCHOOL RAJAHMUNDRY

# Christmas

Every child is special and unique. ...

The festive spirit comes alive as DPS gears up for its annual Christmas celebration. Each year, our school transforms into a hub of joy, laughter, and togetherness, spreading warmth and holiday cheer among students, teachers, and staff. The school premises are adorned with twinkling lights, festive wreaths, and vibrant decorations, creating a magical ambiance that resonates with the joy of the season.

Classrooms burst with creativity as students contribute to the festive decor, showcasing their artistic talents. Cultural Performances: Christmas at DPS is not just a visual spectacle; it's a stage for cultural diversity and talent. Students participate in various performances, from traditional carol singing to modern dance routines, highlighting the unity in diversity that defines our school community.

No Christmas celebration is complete without a visit from the jolly old man himself – Santa Claus! Students eagerly anticipate his arrival, and the joyous laughter that follows as Santa distributes gifts and spreads happiness is a highlight of the festivities. The Christmas celebration is a feast for the senses, especially the taste buds. Students and staff enjoy a delicious array of festive treats, creating a gastronomic experience that adds to the overall merriment. As the echoes of carols fill the air and the school resonates with joy, the Christmas celebration at DPS becomes a cherished memory for all. It's a time when the school community comes together to celebrate the season of giving, spreading love, and creating lasting bonds that go beyond the classroom.

# Field Trip

where learning and fun meet!

On a sunny spring morning, the students of dDelhi Public School embarked on an exciting field trip to the local airport. The anticipation was palpable as the children boarded the buses, their eyes wide with wonder and excitement. Upon arrival, the students were greeted by the airport staff, who guided them through the various terminals and facilities. The first stop was the check-in counter, where the students learned about the process of checking in for a flight and the importance of security measures.

Next, the children were taken to the baggage claim area, where they watched as luggage was unloaded from the planes and transported to the conveyor belts. They were fascinated by the efficiency and organization of the process. The highlight of the trip was the visit to the control tower, where the students were given a behind-the-scenes look at how air traffic is managed. They watched as the air traffic controllers communicated with pilots and monitored the movement of planes on the runways. Afterwards, the children were taken to the observation deck, where they watched planes take off and land. They were awed by the sheer size and power of the aircraft, and some even dreamed of becoming pilots themselves one day. As the day came to a close, the students boarded the buses, their minds buzzing with new knowledge and their hearts filled with excitement. The field trip to the airport was an eye-opening experience for all, and one that the students will remember for years to come.

# Field Trip

where learning and fun meet!

On a Sparkling serene morning, the students of DPS eagerly boarded the buses for a much-anticipated field trip to the Sir Arthur Cotton Museum. This museum was started with an intention to educate the people, how the great Engineer Sir Arthur Cotton during those olden days constructed the mighty anicut across Godavari river and converted the lands of East and West Godavari Districts as very fertile. The Museum also narrates the construction of present Sir Arthur Cotton Barrage constructed with the advance engineering skill.

Lot of Models collected from various places and projects were exhibited in the Museum to attract the visitors, and to make them understand various items connected to Irrigation works. An old anicut model true to its size together with 3 ft. falling shutters, rail track, and plough machine which was originally used for lifting shutters on the anicut.

The machinery of various types which were used at the time of construction of anicut (OLD) are also preserved and kept open for viewers. A model drawing depicting 4 arms of the New Barrage, with 3 Head sluices and 3 scour sluices is also an exhibit in the Museum. Sir Arthur Cotton at the entrance and statue of Cotton riding horse and beautiful fountain jalatarali are also feast to the eyes of visitors to the museum.

# Field Trip

where learning and fun meet!

On a crisp radiant morning, the students of DPS embarked on an educational field trip to the local newspaper factory. The excitement was palpable as the children boarded the buses, eager to learn about the process of creating a newspaper. Upon arrival, the students were greeted by the factory staff, who guided them through the various departments. The first stop was the newsroom, where the students observed journalists and editors at work. They learned about the importance of fact-checking and the deadlines that journalists must meet. Next, the children were taken to the printing press, where they watched as giant rolls of paper were transformed into newspapers. They were fascinated by the loud whirring of the machines and the precision with which the newspapers were printed. The highlight of the trip was the visit to the distribution center, where the students learned about the logistics of delivering newspapers to subscribers. They watched as trucks were loaded with stacks of newspapers, ready to be delivered to homes and businesses across the city. As the day came to a close, the students boarded the buses, their minds buzzing with new knowledge and their hearts filled with excitement. The field trip to the newspaper factory was an eye-opening experience for all, and one that the students will remember for years to come.

# Sankranti Sambaralu

Sankranti is a significant festival celebrated in various parts of India, marking the transition of the sun into the zodiac sign of Capricorn (Makara). It is celebrated with great fervor and enthusiasm, especially in the southern states of India.

In our school, Sankranti is celebrated as a day of cultural significance, where students and teachers come together to celebrate the rich traditions and customs associated with this festival. The celebration begins with an assembly in the morning, where students and teachers gather to offer prayers and seek blessings for a prosperous year ahead.

The assembly is followed by various cultural programs, including traditional dances, songs, and skits, which showcase the vibrant culture and heritage of India. One of the highlights of the Sankranti celebration is the kite-flying competition, where students participate in teams and compete to fly the highest and most colorful kites. This activity not only promotes teamwork and sportsmanship but also brings joy and excitement to the entire school. Another important aspect of the Sankranti celebration is the traditional food prepared and shared among students and teachers. Special dishes like tilgul ladoo, gajar ka halwa, and pongal are prepared and distributed, symbolizing the sweetness and abundance of the harvest season. Overall, the Sankranti celebration in our school is a day filled with joy, laughter, and cultural exchange. It brings together students and teachers from different backgrounds and communities, fostering a sense of unity and camaraderie.

# Sankranthi Sambaralu

The school premises were transformed into a colorful spectacle with vibrant rangolis adorning every corner. Students showcased their artistic talents by creating intricate kolams using colored rice flour and flower petals. The traditional Pongal pots were beautifully decorated with colorful beads and ribbons, adding to the festive ambiance.

The cultural program was the highlight of the day, with students presenting a mesmerizing array of traditional dances and music. The rhythmic beats of Kolattam and Kummi reverberated through the air, while the graceful movements of Bharatanatyam and Kuchipudi left the audience spellbound. The skits and plays depicted the significance of Pongal and its traditions, spreading the message of unity and gratitude.

The procession was accompanied by traditional music and dance, creating a festive atmosphere. The students' pride and joy were evident as they marched through the school, showcasing their cultural heritage. Overall, the Pongal celebrations at [Your School Name] were a grand success, bringing together students, teachers, and parents in a celebration of tradition, culture, and unity. The day was a testament to the school's commitment to promoting our rich cultural heritage and fostering a spirit of gratitude and togetherness.

# Aarohan Annual Sports Day

The sun was shining brightly on the sprawling grounds of DPS School as students, teachers, and parents gathered for the much-awaited Annual Sports Day. The air was filled with excitement and anticipation as everyone prepared for a day of fun, competition, and camaraderie. The day began with a colorful parade, with students marching proudly, showcasing their house colors and banners. The school band played lively tunes, adding to the festive atmosphere.

The Chief guest Jatin Paranjpe and Our school director Karun Sir addressed the gathering, emphasizing the importance of sports in a child's development and encouraging everyone to participate with enthusiasm and sportsmanship. The events kicked off with the traditional races like relay. The children gave their all, cheering each other on and displaying impressive athleticism. The cheers and applause from the audience were

infectious, creating an electrifying energy on the field. Next came the team events including foot ball, Basket ball and throw ball. The students worked together strategizing and supporting each other showcasing teamwork and cooperation. The highlight of the day was the inter house cricket tournament. The matches were intense and closely contested, with each team giving their best. As the sun began to set, the winners were announced amidst cheers and applause.

# Aarohan Annual Sports Day

The students worked together, strategizing and supporting each other, showcasing teamwork and cooperation. The highlight of the day was the inter house cricket tournament. The matches were intense and closely contested, with each team giving their best. As the sun began to set, the winners were announced amidst cheers and applause. Trophies and medals were awarded to the deserving participants, recognizing their hard work and dedication. The day ended with a closing ceremony, with students and teachers coming together to celebrate the spirit of sportsmanship and unity. The Annual Sports Day at Delhi Public School was a resounding success, leaving everyone with cherished memories and a renewed appreciation for the importance of sports in education.

It was an absolute privilege to have Mr. Jatin Paranjpe as chief guest of our annual sports day. He was a middle-order batsman who played briefly at the international level in 1998, before an ankle injury forced him out of the national team.

We were honored to have Dr. Padmaja Tangella, a distinguished gynecologist, as the chief guest for our annual sports day. Her presence was a testament to the importance of holistic health and well-being, and her insights into women's health issues were invaluable for our female students.

# National Science Day

Somewhere, something incredible is waiting to be known.

On February 28th, our school celebrated Science Day with great enthusiasm and zeal. The event was organized to commemorate the discovery of the Raman Effect by the Indian physicist Sir C.V. Raman on February 28, 1928. The day was marked by a series of engaging activities and events that aimed to promote scientific curiosity and inspire our students to pursue careers in science and technology.

The day began with an assembly where students were introduced to the theme and significance of Science Day. This was followed by a series of interactive workshops and demonstrations conducted by our science faculty. Students had the opportunity to participate in hands-on experiments, explore scientific concepts, and engage in discussions about the latest advancements in science and technology.

# National Science Day

Somewhere, something incredible is waiting to be known.

We were honored to have Smt Lalitha Devi Putchala, a distinguished scientist from SDSC SHAR, ISRO as the guest speaker for the event. She delivered an inspiring talk on the wonders of the universe, sharing her insights into the latest discoveries in astrophysics and the possibilities of space exploration. Her talk captivated the audience and left them with a sense of awe and wonder.

# National Science Day

Somewhere, something incredible is waiting to be known.

Our students showcased their scientific projects and experiments in an exhibition held in the school auditorium. The exhibits covered a wide range of topics, including astronomy, physics, chemistry, and biology. Visitors were impressed by the creativity and ingenuity displayed by our students in their projects.

The conclusion of the celebration was marked by a closing ceremony that highlighted the significance of science in our daily lives and its crucial role in addressing global challenges. Students were commended for their creativity, critical thinking, and dedication to exploring the wonders of the natural world. As the event drew to a close, the atmosphere was one of inspiration and encouragement, with students inspired to continue their scientific pursuits and make meaningful contributions to the world around them. The Science Day celebration served as a reminder of the importance of fostering a culture of curiosity, inquiry, and innovation within our school community, ensuring that the spirit of scientific exploration continues to thrive for generations to come.

## MY DREAM

I dream of a dream

I dream that my dream shall someday come true

I dream that all my dreams shall not remain just a dream

I dream for that day when all these dreams are realized

I dream that will make more to dream though these are dreams today,

I will always be dreaming of these dreams, so that I do have hope in life.

I still hope that life is worth.

- Bhashitha

# Activity Corner

## MY BEST FRIEND

She is furry, she is cute and she likes to eat chicken,  
The thought of leaving her makes my heart sad and  
shaken.

She barks and she protects, she makes me feel safe  
and sound,

Whenever I am walking away I always find her when I  
turn around.

She is a dog, her name is Mona Lisa and she is my best  
friend,

I always pray to god to keep her safe till the end.

Whenever I meet her, her tail is always wagging,

I quietly go home when she is not really looking.

Mona Lisa is a fighter and she begs for food on the  
streets,

While politicians cheat people and throw a big feast.

I care about Mona Lisa and she too cares for me,

This is how a friendship should always be.

It is my request please show some humanity,

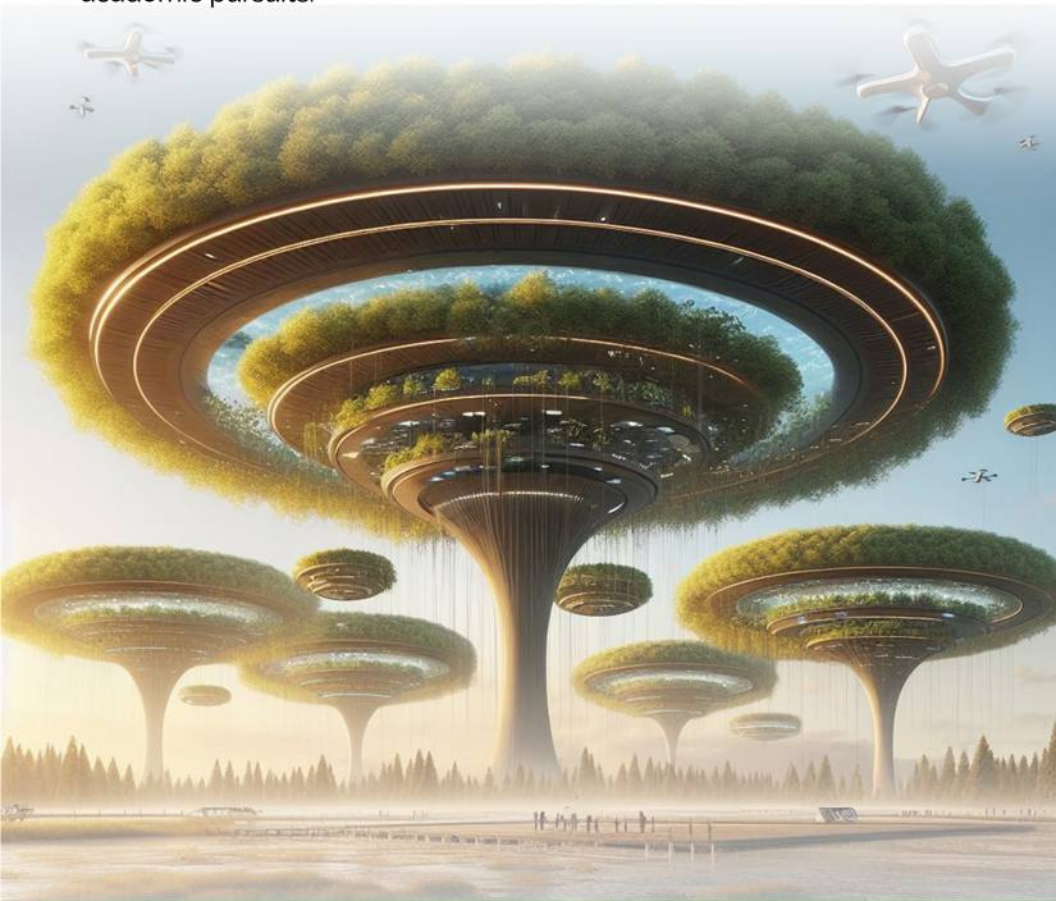

- Khushi Rajan

# Envisioning Tomorrow

## Student Perspectives on Crafting a Brighter Future

These students' write-ups exemplify the power of youthful perspectives in tackling contemporary issues. Their proposed solutions reflect a combination of creativity, empathy, and a deep commitment to building a better future. By taking an active role in addressing these challenges, the students inspire hope for positive change in our global community. These write-ups highlight the students' dedication to producing original content while adhering to the highest standards of academic integrity. By meticulously crafting their work, utilizing plagiarism checks, and embracing the principles of proper citation, the students demonstrate their commitment to upholding the values of honesty and authenticity in academic pursuits.

# FOR A BETTER FUTURE

## Problem Statement:

Health was earlier said to be the ability of the body to function well. However, as time evolved, the definition of health also evolved. India is a developing country, and a country like India needs to have basic and proper healthcare. The hospitals which offer the best treatment in India are all private hospitals. This makes it difficult for the poor to get the best health treatment. Government hospitals benefit poor people who can't afford private treatment. People can have free treatment when they are sick. X-rays, prescriptions from doctors for medicines and some other tests and services are provided for free. Eventually, the quality of health care treatments is declining in government hospitals. The main reason for this is the increase of private companies and negligence by the government. Due to this, there is a high decline in the population of people who belonged to poor societies in India.

## The Proposed Solution

Government hospitals can be improved by the cooperation of private hospitals. The average revenue of all renowned private hospitals stood at ₹27,282 million. Instead of using this amount for their own development, they can sponsor government hospitals. This improves the quality of healthcare treatment in government hospitals. If private companies help the government hospitals by providing medicines and the best doctors, this would raise employment in the medical sector of India. The government should also spend some of the money on the basic requirements of a hospital such as proper infrastructure, including water, electricity, beds, and medical and paramedical manpower. Schemes such as the National Health Mission (NHM), National Rural Health Mission (NRHM), National Urban Health Mission (NUHM), and Pradhan Mantri Suraksha Bima Yojana are some of the government-installed schemes which are only followed in some particular states in India. The government should also install more programs and schemes in India such that all the states should be implementing the schemes and programmes.

# FOR A BETTER FUTURE

## Problem Statement:

India, as it strides toward a promising future, finds itself in a fierce battle with some formidable adversaries - overpopulation, pollution, and scarcity of resources. The bustling streets, clogged roadways, and a relentless reliance on fossil fuels create a cacophonous and polluted urban landscape that is taking a toll on the people. For the younger generation, the consequences are particularly harsh. The polluted air they breathe results in an upsurge of respiratory illnesses, hindered lung development, and a troubling increase in asthma cases. The constant noise pollution disrupts their sleep, steals away their hearing, and burdens them with unrelenting stress. Despite these challenges, India's journey toward prosperity is undeniable. To secure a brighter future, India must address these issues with new age technology - by promoting sustainable living, cleaner energy sources, and thoughtful urban planning, ensuring the well-being and happiness of its people.

## The Proposed Solution

Imagine a vision where we tackle the complex challenges of overpopulation, pollution, and resource scarcity with an ingenious twist. Envision large disk-like structures, called Aerodisks, gracefully hovering 350 meters above the ground. These structures are not just functional; they are also home to genetically modified trees, absorbing moisture from the air. The result? Improved oxygen levels and a meaningful reduction in greenhouse gases. What's truly remarkable is that these airborne platforms are entirely self-sufficient, harnessing the power of the sun and the wind to remain afloat, all while leaving no trace of air or noise pollution in their wake.

But these Aerodisks offer even more. They serve as landing spots for

### "Drola Cabs".

Now, let's shift our focus to the skies above, where "Drola Cabs" take flight. These cabs are not your ordinary mode of transportation; they are capsules securely fastened to drones. They offer an eco-friendly way as they use solar energy and are an efficient way for people to move from one place to another. Equipped with health sensors, these cabs prioritize the well-being of passengers. If a passenger encounters a health issue, the system reroutes to the nearest hospital. In the rare event of a breakdown, a parachute system comes to the rescue, ensuring a safe descent to the ground, while keeping the person in constant contact with a nearby rescue centre. These innovative cabs not only control traffic congestion but are also cost-effective, as they can be constructed from e-waste, costing just ₹50 per kilogram.

# FOR A BETTER FUTURE

## Problem Statement:

In India, drug trafficking has significant and multifaceted effects. It poses a grave threat to public health by fostering addiction and substance abuse. The illegal drug trade contributes to increased rates of violence and organized crime, leading to social instability in some regions. Corruption within law enforcement and government institutions can undermine the rule of law and erode public trust. Economically, it places a burden on healthcare systems, as addiction-related health issues strain resources. Illicit drug markets distort local economies and can disrupt legitimate businesses. Additionally, drug trafficking can result in environmental damage, particularly when it involves the cultivation of illegal drug crops. To address these issues, India has taken steps to combat drug trafficking through law enforcement efforts, addiction treatment programs, and public awareness campaigns, recognizing the need for a comprehensive approach to mitigate its damaging effects on society.

## The Proposed Solution

In the fight against drug trafficking, it's vital to employ cutting-edge technology and data analytics for more efficient detection and interdiction of drug shipments. For public awareness campaigns should highlight the dangers of drug abuse and the consequences of trafficking. By continuously adapting strategies, combining law enforcement efforts with prevention, rehabilitation, and global cooperation, we can work towards reducing drug trafficking's impact on society. Government of India must make an app which will be pre-installed in all the public's smartphone and which will record location, voice, chat, data, and it will clinch if any drug related or any illegal activity of any field is going then it will directly drop a message to the following police and even which people are innocent no one can blame them as this app will check all its biodata and history. This software is designed to be comprehensive, yet fine-tuned. It leverages advanced algorithms to sift through vast volumes of textual and telephonic communication, with an uncanny precision in identifying keywords that are indicative of drug-related activities. Words like "drug," "cocaine," "crack," and "cannabis" act as beacons that lead the software to the very heart of matter, enabling authorities to intervene swiftly and decisively.

In conclusion, the government's innovative software, designed to combat drug dealers and smugglers through the proper utilization of language and context, is a remarkable technological marvel. It heralds a new era in the ongoing fight against the narcotics underworld, offering both precision and vigilance while preserving individual freedoms and privacy.

# FOR A BETTER FUTURE

## Problem Statement:

In a society which strives for peace, happiness, and comfort, why does crime prevail? In India, the judiciary system plays a crucial role in keeping the country safe. But the Indian judiciary system is not perfect as it has crores of pending cases. India is well known for its judicial delays which accounts for 5.02 crore pending cases, which is a huge amount of people who didn't get justice. Courts usually handle big cases (cases of popular and powerful people) first and most petty crimes stay pending and unsolved for years. Due to some weaknesses in the judiciary people can get bribed easily and that makes the common man or the victim and sometimes even the culprit as well suffer. It is very difficult to get appointment of judges in courts as they take much time to give an appointment that too for a short period of time.

## The Proposed Solution

Every crime, no matter how big or small it is, should be looked into. And each case should have a specific duration based on its complexity. But after the duration is over there should be another judicial division which would keep looking into pending cases as long as possible. So, if many people are involved it would make solving cases pretty easy especially if it's a small crime that major judicial divisions can't look into. Some people may feel the need to get in contact with the other judicial division. So, the government can make a website through which people can connect to the other judicial division in a faster and a convenient way. The government should add basics of law to the school curriculum from grade 8. This will help the next generation to have good foundation of law. This also might inspire kids who are not sure which field they should take. And even if the kids don't want to pursue law, they will still have basic knowledge about laws which will help them in their daily life. This may help to reduce crime as the children will have more knowledge about law and will not commit crimes unknowingly.

In conclusion, a good judicial system is the foundation of a good society. So, we cannot reduce crimes but what we can do is enhance the way we deal with crime.

# FOR A BETTER FUTURE

## Problem Statement:

Agriculture is the science of cultivating soil, growing crops and rearing animals. It is a beautiful art which is the source of food to all the people around the world. Farmers play a key role in sustaining agricultural practices. Agriculture is undoubtedly the largest livelihood provider in India. It is the backbone of India. But we cannot ignore the problems faced by Indian agriculture system. Indian farmers are at severe loss due to unexpected natural calamities, drought, poor infrastructure, insufficient & inefficient storage facilities, selling price fluctuation and exploiting middlemen & local traders. All these factors are making agriculture an extremely risky, uncertain and dangerous profession. Many farmers are committing suicides as they are unable to bear the losses. Many cultivated crops were damaged due to incessant rains in many parts of India. It is high time we revolutionize agriculture with technology like Artificial Intelligence and rejuvenate Indian agricultural practices.

## The Proposed Solution

Many Indian farmers don't have access to modern techniques of farming. As mentioned earlier technology and many digital tools can revolutionize agriculture. Our solution is to create an app that assists the farmers in every step of agriculture from production, protection to management. Our app aims to provide technological assistance to the farmers in an effortless way. This way we can improve the efficiency of our farmers and reduce losses that are often faced by them. The main features of the app are:

This app includes AI based voice assistant which is available in different languages so that the uneducated poor farmers don't face any difficulties in learning new techniques while farming.

This is a user-friendly mobile app that lets the farmers use it on all kinds of phone.

This app also promotes or teaches new cropping patterns and modern irrigation methods to the farmers who are not aware of them.

This app helps the farmers by suggesting right crop and proper seeds according to the season. It emphasizes the need of soil fertility and suitable climatic conditions.

It creates awareness about crop insurance, the schemes and infrastructure provided by the government for the welfare of farmers.

This app connects the farmers directly to the market to ensure better returns

This app is a small step towards a big change. This app definitely brings desirable revolutionary changes in agriculture and also in the lives of our farmers and regain the beauty of farming.

# FOR A BETTER FUTURE

## Problem Statement:

Over the last decade there has been a rapid increase in the death rate. According to the World Bank's data; above 26,000 people are dying per day in India. We cannot justify that all of these deaths are caused due to old age. Most of these deaths may even be caused due to accidents and crimes. In a country such as India with such a population, people are more prone to danger. This is still a developing country. In order to prevent loss of life, more effective safety measures should be implemented and rescue teams should be available at remote places. Over speeding and driving after alcohol consumption causes many accidents. In rural areas boreholes are not being filled; which is another reason for deaths of small kids. There are more reasons for deaths caused due to irresponsibility that can be prevented.

## The Proposed Solution

According to the survey of ministry of road transport, every year 1.5 lakh people in India are suffering due to road accidents that means; on an average 47 accidents and 18 deaths are taking place in India per hour. Most of these accidents are caused due to over speeding and distracted driving. So now, to prevent this problem a device can be installed in all the licensed vehicles; that would alert the driver in any case of over speeding. The device makes a beep sound in order to alert the driver and if the driver does not decrease the speed even after multiple alerts the device automatically sends the information to the police department. Specialized sensors should be installed in the device that can detect the traffic around the vehicle. All vehicles must possess this device despite of their price.

Rescue teams are not available in rural areas and; for some major problems Indians don't have the equipment to resolve the issue. We can identify this problem by considering the deaths caused due to boreholes. Boreholes are created when deep holes are drilled in the earth's crust in search of water and are not filled. Small children tend to fall into these boreholes and it is a huge threat to their lives. Therefore, to prevent this loss rescue teams have to be quick and the machinery and technology being used in the process must be advanced enough to save the kid in time.

As we conclude this edition of Beats, our school magazine, we bid adieu to another academic year filled with memorable moments, achievements, and growth. As we turn the pages of this magazine, we reflect on the diverse talents, stories, and voices that have enriched our school community.

To our graduating seniors, as you embark on new journeys, remember the friendships forged, lessons learned, and experiences cherished within these walls. Your contributions have left an indelible mark on our school, and we wish you success and fulfillment in all your future endeavors.

We extend our heartfelt gratitude to our dedicated faculty and staff, whose unwavering support and guidance have nurtured and inspired us throughout the year. Your passion for education and commitment to our growth are truly appreciated.

To our readers, thank you for your continued support and enthusiasm for Beats. We hope this magazine has provided you with insight, entertainment, and a glimpse into the vibrant tapestry of our school community.

As we eagerly anticipate the adventures and challenges that lie ahead, let us carry forward the spirit of unity, resilience, and curiosity that defines us as a school. Here's to new beginnings and endless possibilities.
